Analytics Vidhya

Course Summary and Way Forward

Instructor

Dipanjan Sarkar

Head of Community & Principal AI Scientist at Analytics Vidhya

Google Developer Expert - ML & Cloud Champion Innovator

Published Author

Key Tools and Frameworks Covered in the Course

Build Gen AI Apps

Build AI Agents

Debug, Evaluate, and
Monitor Gen AI Apps

Deploy Gen AI Apps

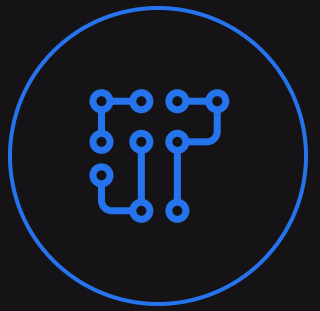
Analytics Vidhya

What Next...

LangChain ecosystem will keep evolving. Regularly check their blog and documentation.

AI Agents and Agentic AI Systems are still in the early stages; even powerful LLMs sometimes fail to call the right tools.

LangGraph and other agentic frameworks and LLMs will undergo more updates and evolution.



Combine patterns like Agentic AI and RAG to build more advanced systems, getting the best of both worlds.
