

# Introduction to AutoGen

Instructor

**Lucas Soares**

AI Engineer at Otovo

Specialist in LLM Applications & Computer Vision

Instructor at O'Reilly Media

Technical Writer & Content Creator

# What is AutoGen?

- AutoGen is a framework for building agents that can collaborate through conversational patterns to accomplish tasks

Link: <https://microsoft.github.io/autogen/>

# Features

- **Conversable agents:**
  - A design of agents that can use LLMs, human input, tools, or a combination of these to create agents with different roles.
- **Conversation Programming:**
  - Programming paradigm centered around inter-agent conversations
